**Graffiti Protectant Super Kit 2-free shipping 1st time only**

Contains 4 litre Grizzly, 1 litre Hippo Seal, 2 sprayers & 2 bottles. This kit is for those about to start in the business or to apply coatings around their facility or house. There is enough product to coat between 300 to 500 sq. ft. depending on type of surface. \$168.00

**Grizzly Non-Sacrificial Anti-Graffiti Coating**

Grizzly is a single part system that provides a tough & durable graffiti resistant finish. This is a cross-linking co-polymer material coating that dries clear(non-yellowing) with a low luster sheen. Protects a variety of interior & exterior vertical surfaces from permanent graffiti staining & damage. Will protect your surface from graffiti defacement caused by commercial available spray paints. 4l \$88.00  
4x4l \$334.00  
20l \$396.00

**Hippo-Seal Concentrate with Micro-Lok  
100% Penetrating Water Repellent Alkoxysiloxane**

Hippo-Seal Concentrate is a solvent free, 100% active solid, Alkoxysiloxane repellent which is to be diluted 9 to 1 with clean water before use, Hippo-Seal self emulsifies to form a high performance & deep penetrating, alkali resistant water repellent emulsion. When applied, Hippo-Seal forms a short-chain water repellent barrier deep within the masonry surface. This hydrophobic barrier displaces water yet remains highly vapor permeable & allows moisture to escape. Hippo-Seal performance is not affected by weathering, UV light or wind driven rain. Micro-Lok creates a micro-molecular chemical & mechanical bond between the water-repellent chemicals & the substrate. Hippo-Seal penetrates deep into porous masonry surfaces to provide long lasting & virtually indestructible water repellent protection that is not affected by weather or sunlight. Helps prevent spalling & cracking caused by freeze thaw cycles. Helps prevent chloride ion intrusion & efflorescence. 4l \$288.00  
4x4l \$1,094.00  
20l \$1,296.00

**Cleansweep One**

Specially formulated biodegradable product for the final cleanup on stone or brick surfaces after the graffiti has been removed. It helps to control the shadow that occurs from salt leaching out of the stone or brick & can also be used to remove efflorescence from the stone and brick. C01310-1l 1l \$9.00  
C01310 12 x 1l \$103.00
