

Product Data Sheet

Cleansweep One - final cleanup on stone & brick surfaces

- 1- This product can be used as a final cleanup when you remove graffiti from stone or brick surfaces to help control the shadow that occurs from salt leaching out of the stone or brick
- 2- It can also be used to remove efflorescence from stone and brick.
- 3- Spray or brush on at dilutions between 5 to 1 or 30 to 1 as needed. On areas with heavy efflorescence dilute 1 to 1.

Cleansweep Two - final cleanup on hard smooth surfaces, glass & mirror

- 1- This product was formulated to use after the graffiti is removed, it cleans the surface to get it as clean and shiny as possible.
- 2- It can also be used as a very effective glass cleaner as it helps to remove the residues from these surfaces.
- 3- Spray on and wipe off as needed.
